## TWO HARVARD ATHLETES ARE TURNED OUT

John W. Cutler, quarterback on the victorious football team last Fall, and Sidney W. Fisk of the 1908 Varsity crew, who were suspended last June by President Eliot, with William Morgan, for taking a library book, have been asked to resign from Harvard College under pain of summary action by the faculty. This action follows special meetings of the admiral

Both families have been prominent in the yard effort. Cutler, who is a senator, is a prominent Brooklyn family, played comparison on the football team which carried away the state championship in 1934, and a number of which every player will go down in the history of college football. He was to have been a Yale degree graduate.

Plach, of a family still more prominent is a Yale degree graduate, and a member of the Yale Law School. He had been one of the cars in the Yale race which was won by the car in which Yale did not finish.

Plach, who is a Yale graduate, distinguished himself at Harvard, appeared personally to President Elliot to allow Plach and Morison to continue their work in the state. Plach was quietly advised by the president to continue to confine his authority to his own affairs.

RED SOX HOME;  
OPEN SERIES  
WITH THE TIGERS

## RED SOX TOOK MAJOR PORTION OF THE GAMES ON LONG WESTERN TRIP

The crippled big game Red Sox arrived in Boston this morning at 7 o'clock and, with the exception of a few of the injured and sick members of the squad, all were in due time.

When Bill Carrigan walked up the stairs, he looked more like a ghost than he did the coach he looked on whom the huge back so strongly. Bill was exhausted and his face was as pale as a ghost.

All these handicaps and this much in the way of the Red Sox's trip to the West, for they were not so fortunate enough to get along with the plan to leave every day and be forced to take at least four days of rest and get over their troubles.

Lake in Good Spirits

Manager Lake was just as high in spirits as the players, and said that while his team was the majority of its games on the road, had not been so severely battered up as they had been the start of the season of the West, the boys would have come home with a good many more points collected at the various cities the Red Sox visited.

Amos McClellan, the manager stated, had not been very good at giving out information about himself and consequently the Red Sox had not known his true condition. Manager Lake stated, that he had not been very good at giving out information about himself and consequently the Red Sox had not known his true condition.

## Baseball News and Notes

Charles has not joined the Louisville Colonels and nothing indicates that he intended to have been.

Did Howard is expected to show more in the coming season than he did in the last.

Cliff Chase has made a point of going to a table in the first base line in the Red Sox's clubhouse, and he has been seen there since the team's arrival in Boston.

Frank Bick, of the Red Sox, is a better catcher than he was when with the Phillies in 1910. The Red Sox have been looking for a catcher since the team's arrival in Boston.

It took "Bobby" two years to drive the Red Sox from the first base line in the Red Sox's clubhouse, and he has been seen there since the team's arrival in Boston.

The fight against the Red Sox in the Red Sox's clubhouse, and he has been seen there since the team's arrival in Boston.

A United States  
Judge and the  
New Citizen

The Judge's Questions Are Justifiable. BUT HE MIGHT AMPLIFY THEM

belonged to organizations—meaning labor unions—that object to their members joining the militia or the regular army. In our opinion the editor is mistaken in condemning the judge.

IT IS foolish of labor unions to discourage the joining of the militia by their members—if any labor unions DO discourage that act.

The army represents the armed forces of the country. The militia especially is important, as it represents the people more closely than does the regular army. If we should ever have at Washington a government trying to rule the country with a standing army, rather than through Congress, the militia would be most important to the people's liberties—THEREFORE WORKING PEOPLE SHOULD BE IN THE MILITIA. READY TO DEFEND THE RIGHTS OF THE PEOPLE IN GOVERNMENT.

If there is any organized effort to discourage joining the militia, Judge Lacombe is right in criticizing that effort. Of course, he has no actual RIGHT to refuse naturalization papers because any foreigner objects to military service. Mr. Lacombe is supposed to be controlled by the laws of the country, and the laws of the country do not establish any military or anti-military standard for citizenship.

A judge is entitled to a certain amount of discretion in cross-examining those that appear before him for naturalization papers. Questions perhaps not strictly legal or absolutely prescribed by law might bring out useful information. We would suggest to Judge Lacombe that he go further in his questioning and put to the would-be citizens, that appear before him some or all of the following questions:

Question 1. "You want to be a citizen of the United States? Are you prepared to defend this government and its inhabitants against unjust, arbitrary and illegal acts BY JUDGES?"

Question 2. "Have you contempt and hatred for a judge who sits on the bench, put there by a street car magnate, and used by the inheritors of that magnate's power to swindle the people upon every possible occasion?"

Question 3. "Would you join with your fellow-citizens in driving from the bench in one way or another—in ANY way possible—and every judge disgracing the bench and violating the Constitution and the people's rights?"

Question 4. "Do you realize that it is an outrageous and dangerous thing for the ordinary working men to try to take the law into their own hands?"

"And do you realize that it is an infinitely more outrageous, shameful and dangerous thing FOR JUDGES ON THE BENCH TO TAKE THE LAW INTO THEIR OWN HANDS?"

Question 5. "Are you prepared to defend the Constitution of the United States against judges that misrepresent it, and forbid free speech, WHEN THE CORPORATION THAT PAYS THEM OR THAT MIGHT WANT FREE SPEECH FORBIDDEN?"

Question 6. "Do you realize the fact that the making of the laws is a very small thing, so LONG AS THE ENFORCEMENT OF THE LAWS IS LEFT TO JUDGES WHO ARE PUT ON THE BENCH BY CORPORATIONS?"

"Will you study out the question of government by appointed judges in the United States? Will you keep in mind constantly the warning of Thomas Jefferson, who declared that this government, if ever destroyed, would be destroyed by judges working in defiance of the people and free from their control? Do you abhor a system that changes the dishonest legal jackals of corporations into judges interpreting the law?"

It seems to us that if Judge Lacombe and others would go a little further in their questions they might do a great deal of good.

He would render a real public service if he would impress upon the immigrants appearing before him for naturalization papers the importance of driving out of public life, and, if possible, OUT OF THE UNITED STATES, the dishonest judges appointed by dishonest corporations to do their dishonest, dirty work—SPECIFICALLY IN CONNECTION WITH PUBLIC SERVICE CORPORATIONS.

Our Work at Panama

The opening of the Panama Canal will mark a date of the highest importance in the history of the world. The canal will give the United States a continuous outlet from the States of Washington to Maine. The United States will, in fact, double the effectiveness of its navy without increasing its naval strength.
